

## SUNFLOWER KERNELS

**A variety of nuts and seeds such as sesame, poppy, dill and caraway are traditionally used in bakery products. Sunflower seeds, to be exact the hulled sunflower seed kernels have become one of the leading products used in bakery and confectionery industry.**

**Sunflower kernels have pleasant flavor, a nutty texture and are nutritious. Hulled sunflower kernels are considered healthier than any other seeds and nuts which are used as ingredients in bakery industry. And of course they will make your bread extremely delicious.**

## SUNFLOWER KERNELS PRODUCTION LINE

Company Grainfield LTD is located in Dnipro region of Ukraine, has one of the most advanced kernel production lines in Ukraine. It has the latest equipment from the best European companies such as Shulle, JK Machinery, ASM (sortex machines) and it is certified according to ISO 22000, HACCP.
